IMPORTERS AND GROWERS

CREAM OF THE CROP BULBS

NEW YORK OFFICE: 1270 BROADWAY

LEBANON, OHIO

February 19, 1954

Librarian
U. S. Department of Agriculture
Washington 25, D. C.

Dear Sir:

Kindly find enclosed our Fall 1954 listing of bulk and packaged flower bulbs. With this listing we enter our thirtieth year of selling quality Fall planting bulbs in both bulk and packages. We are proud of the many customers we have who uninterruptedly bought our product for many years. We are also proud of our reputation of having the most colorful packaged bulb line in the field.

In addition to our many packages with which you are familiar, we would like to call your attention to our item #25, a new Fluorescent Tulip package of triangular design. This package incorporates an added feature of a garden marker attached to the outside of the package with which the purchaser can mark the location of his bulbs. The marker quickly and indelibly indicates the color and variety of the contents of the package. We hope you will include in your order some of these packages as we feel sure you will experience a very rapid sale of this novelty package.

A very severe cold wave has been experienced in the past few weeks in Holland and indications are that it might have hurt the over-all crop of Fall flowering bulbs. England, Germany and Sweden have all increased their buying quotas 20% in 1954. In the face of indications of a short crop and more competition on the auction from foreign countries, we urge you to place your orders with us early so that we can cover our commitments to assure you of the best possible service.

It is our plan to have direct bulk shipments shipped to arrive in your stores for sale immediately after Labor Day and to have our packaged bulbs leave Lebanon during the first two weeks in September, depending upon the shipping instructions on your orders. This will insure the longest possible selling season. We will also carry adequate stocks of bulbs in Lebanon to take care of any repeat order requirements during the season.
